Observability: Technologies and Implementation
by Matt Conran

Table of Contents   Transcript

1 Course Overview
  1m 27s
2 The Path to Observability
  31m 9s
3 Core Observability Use Cases
  30m 17s
4 Observability and Network Monitoring
  24m 32s
5 Observability and Application Monitoring
  33m 55s

Description

Lacking an end-to-end monitoring solution hinders visibility. In this course, Observability: Technologies and Implementation, you'll learn the path to observability. First, you'll explore why you need observability. Next, you'll discover core observability uses cases. Finally, you'll learn how to monitor with Cisco observability solutions. When you finish this course, you'll have the skills and knowledge of observability technologies and implementation needed to monitor an application stack end-to-end.

Table of Contents

⌄ 1. Course Overview	✓	1m 27s
⌄ 2. The Path to Observability	✓	31m 9s
⌄ 3. Core Observability Use Cases	✓	30m 17s
⌄ 4. Observability and Network Monitoring	✓	24m 32s
⌄ 5. Observability and Application Monitoring	✓	33m 56s

The Path to Observability 31m 9s

The Path to Observability	5m 26s
Pillars and Use Cases	5m 24s
Demo: Dynatrace Observability Platfrom	6m 31s
DIY Observability Platform	5m 22s
Demo: ThousandEyes Observability Platfrom	5m 6s
Key Takeaways	3m 16s

Core Observability Use Cases 30m 17s

Hybrid Application Monitoring	3m 48s
Key Monitoring Challenges	2m 54s
Dynatrace Features	2m 38s
Demo: Dynatrace Features	7m 0s
Cisco ThousandEyes Features	2m 18s
Demo: Cisco ThousandEyes Features	5m 21s
Integration and Use Cases	6m 14s

Observability and Network Monitoring 24m 32s

Introducing Cisco ThousandEyes	3m 49s
Agents and Failures Modes	5m 11s
Demo: ThousandEyes End Users Agents	5m 48s
Demo: Internet Insights	5m 22s
Autonomy of Outages	4m 20s

Observability and Application Monitoring 33m 56s

Starting Application Monitoring	3m 9s
Observability and Virtualization	3m 2s
Challenges Container Montioring	2m 59s
Demo: 3 Dyntrace Security Demo	6m 20s
Demo: Dynatrace Kubernetes Monitoring	6m 31s
Kubernetes Monitoring	2m 47s
Observability vs. Monitoring	5m 14s
Recap on Observability and Monitoring	3m 50s

Explaining Dynatrace Concepts 20m 39s

Course Introduction	3m 17s
Introducing Dynatrace	3m 10s
Introducing the Dynatrace Software Intelligence Platform: Part 1	4m 11s
Introducing the Dynatrace Software Intelligence Platform: Part 2	5m 41s
Demo: Exploring Dynatrace	3m 41s
Summary	36s

Examining Dynatrace Use Cases 23m 40s

Overview	1m 7s
Observing APM Use Cases	3m 51s
Discovering Infrastructure Use Cases	2m 57s
Observing Digital Experience Use Cases	4m 6s
Exploring Other Use Cases	3m 4s
Demo: Exploring Dynatrace Use Case	7m 49s
Summary	44s

Discovering and Ingesting Data into Dynatrace 42m 42s

Overview	2m 12s
Deploying Dynatrace OneAgent	4m 5s
Demo: Deploy OneAgent	3m 56s
Discussing Dynatrace ActiveGate	3m 54s
Demo: Deploy ActiveGate	3m 26s
Collecting Custom Data with Dynatrace API	1m 37s
Collecting Data from Logs	3m 35s
Collecting Data with Integrations	3m 27s
Demo: Collect Data from Microsoft Azure	3m 22s
Collecting Data with Real User and Synthetic Monitoring	5m 39s
Demo: Create Browser and HTTP Monitors	6m 22s
Summary	1m 1s

Visualizing Data in Dynatrace 45m 7s

Overview	1m 43s
Visualizing Data with Tiles and Charts	3m 2s
Analyzing Data with Dashboards	8m 1s
Demo: Creating and Editing Dynatrace Dashboards	8m 8s
